CAFÉ LANDING PAGE

- A single-page website that gives a local coffee shop a warm and inviting presence on the web.
- Everything a visitor needs on one scrollable page: what it serves, when it is open, and where to find it.
- Built with HTML, CSS, and a small amount of JavaScript.
- Organised into clear sections:
- Hero, menu, opening hours, location map, and gallery.
- A small admin panel to add products and update prices.

CAFÉ LANDING PAGE

- Emphasises a warm aesthetic, good typography, and generous use of imagery.
- Responsive layout that adapts cleanly from desktop to mobile, with smooth scrolling between sections.
- Menu items and prices are stored as JSON data and rendered by JavaScript.
- A password-protected admin panel lets the owner add products and change prices without touching the code.

OBJECTIVES

- To give a local café a single, attractive online home for its essential information.
- To present the menu, opening hours, and location clearly on one scrollable page.
- To create a strong first impression through warm design, typography, and imagery.
- To deliver a fully responsive layout that works on desktop, tablet, and mobile.
- To let the owner add new products and update prices through a simple admin panel.
- To keep the site lightweight so it is quick to build, cheap to host, and easy to maintain.

EXISTING SYSTEM

- Most independent cafés rely only on word of mouth and social media.
- Menu, hours, and address are scattered across platforms or missing.
- Social profiles give little control over branding and layout.
- Information is often outdated and hard to locate on a map.
- No dedicated space to convey the atmosphere of the café.
- Prices and new items can only be updated by editing the code.

PROPOSED SYSTEM

- A single, thoughtfully structured landing page built with HTML5, CSS3, and JavaScript.
- Full-width hero with the café's name, tagline, feature photograph, and call-to-action.
- Clear menu of signature drinks and daily specials with descriptions and prices.
- Opening hours and an embedded Google Maps location in one place.
- Instagram-style photo gallery that conveys the atmosphere of the space.
- A small admin panel to add products and update prices.

MOTIVATIONS

- Many independent cafés have no website of their own.
- Customers expect menu, hours, and location online instantly.
- A single landing page is an affordable marketing asset.
- Growing importance of a strong first impression on mobile.
- The problem is concrete, visual, and solvable with front-end skills.
- Demonstrates an eye for design alongside coding ability.

FUNCTIONALITIES

- Hero – full-width banner with the café name, tagline, photo, and call-to-action.
- Menu / Specials – signature drinks and daily specials with descriptions and prices.
- Opening Hours – the week's schedule laid out clearly at a glance.
- Location – embedded Google Maps iframe together with the café's address.

FUNCTIONALITIES

- Photo Gallery – Instagram-style strip of images showing the atmosphere.
- Responsive Design – layout adapts cleanly from desktop to mobile.
- Interactivity – smooth scrolling, mobile navigation toggle, and gallery behaviour.
- Admin Panel – password-protected page to add new products and edit prices.

MODULE DESCRIPTION

Hero Section:

- Full-width banner image
- Café name and logo
- Short tagline
- Feature photograph
- Call-to-action button (“View Menu”)
- Secondary action (“Find Us”)
- Sticky navigation bar
- Smooth scroll to sections

MODULE DESCRIPTION

Menu Section:

- Signature drinks list
- Daily specials
- Short item descriptions
- Prices for every item
- Food and pastry items
- Category grouping
- Responsive card grid
- Menu rendered from JSON data

MODULE DESCRIPTION

Opening Hours & Location:

- Weekly opening hours
- Weekend and holiday timings
- Café address
- Embedded Google Maps iframe
- Directions link
- Contact number and email
- Social media links
- Responsive map container

MODULE DESCRIPTION

Gallery & Footer:

- Instagram-style photo strip
- Responsive image grid
- Lazy-loaded images
- Hover and lightbox effects
- Alt text for accessibility
- Footer with quick links
- Copyright and credits
- Back-to-top button

MODULE DESCRIPTION

Admin Panel:

- Password-protected login
- Add a new product
- Edit name, description, and price
- Delete or hide an item
- Mark an item as a daily special
- Live preview of the menu
- Changes saved to browser storage
- Export and import menu data (JSON)

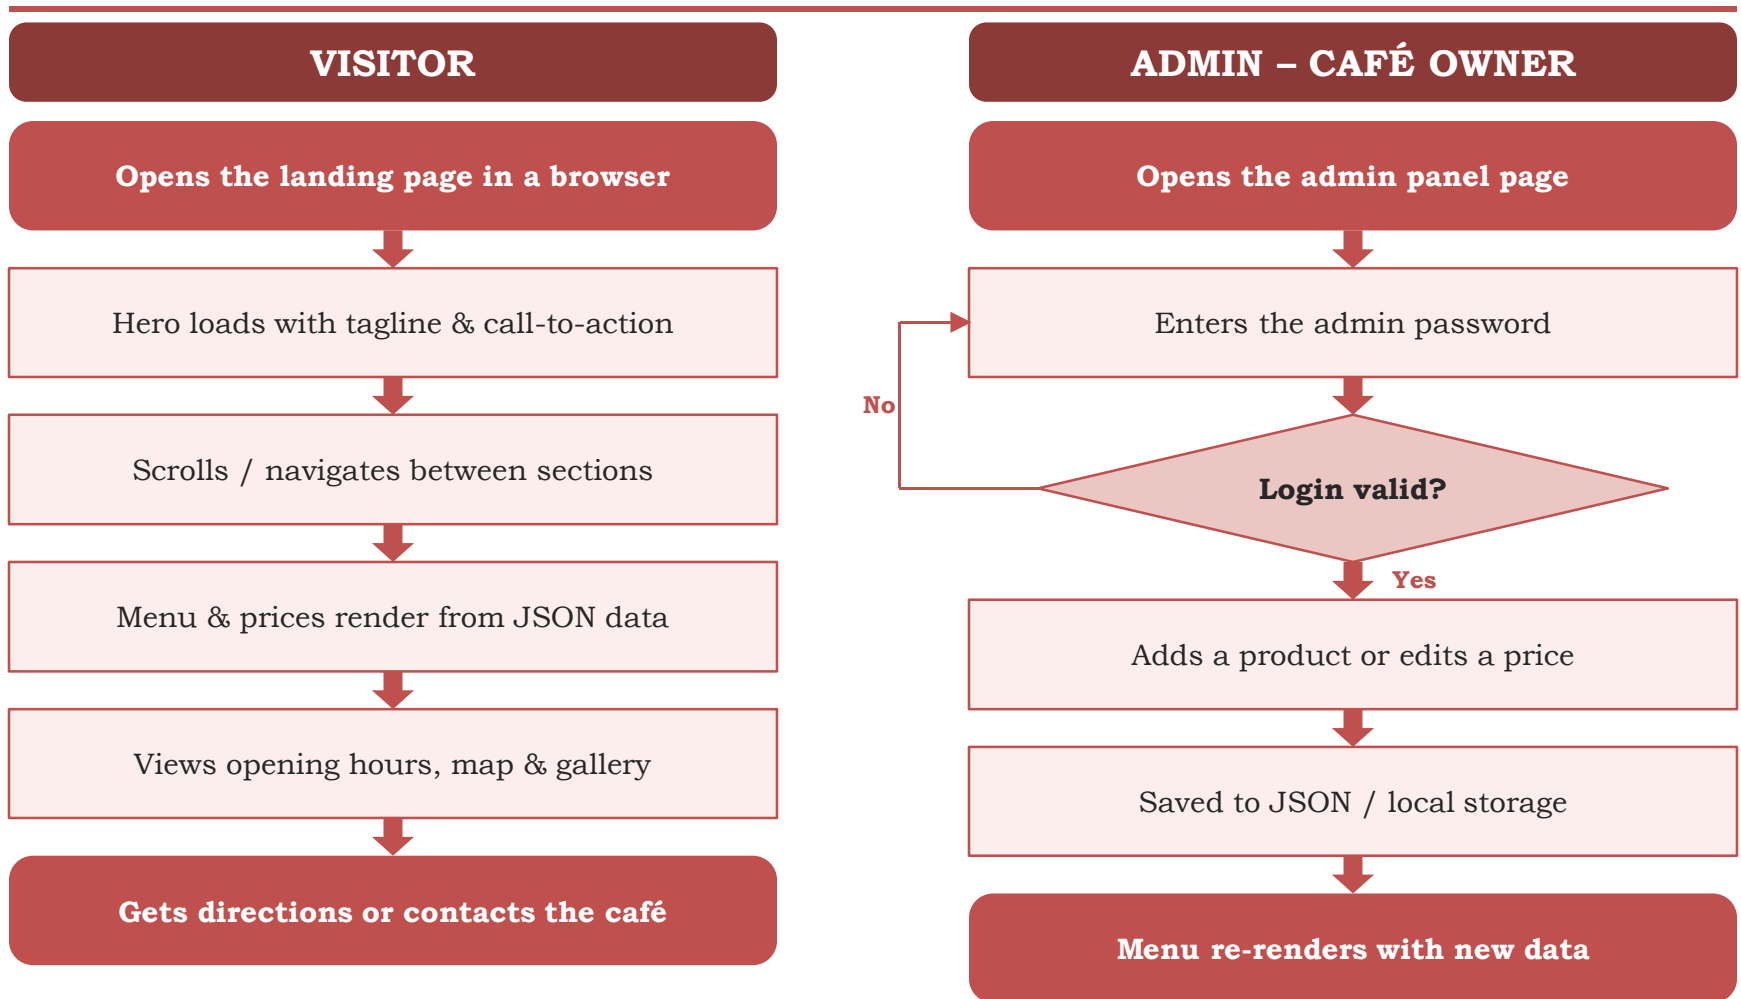

METHODOLOGY

- Agile Scrum methodology followed throughout the project.
- Requirements captured as user stories in the product backlog.
- Work divided into short sprints with a clear sprint goal.
- One section of the page designed, built, and tested per sprint.
- Progress reviewed with the product owner after every sprint.
- Feedback folded into the next sprint until the page is complete.

WORKFLOW

DEVELOPMENT ENVIRONMENT

- Operating System – Windows
 - Front End – HTML5, CSS3, JavaScript (Vanilla)
 - Menu Data – JSON file rendered dynamically with JavaScript
 - Data Persistence – Browser LocalStorage (admin changes)
 - Maps Integration – Google Maps Embed API
 - IDE / Code Editor – Visual Studio Code (VS Code)
 - Version Control – Git & GitHub
 - Deployment – GitHub Pages
-

SPRINT BACKLOG

Backlog Item	Completion Date	Est. Hrs	D1	D2	D3	D4	D5	Status
SPRINT 1 – HERO SECTION (06/08/2026 – 12/08/2026)								
Layout & wireframe planning	07/08/2026	4	2	2	0	0	0	Completed
Hero HTML/CSS + navigation bar	09/08/2026	6	0	2	2	2	0	Completed
Smooth scroll JS + responsive fixes	12/08/2026	5	0	0	1	2	2	Completed
SPRINT 2 – MENU SECTION (13/08/2026 – 19/08/2026)								
Menu JSON data structure	14/08/2026	3	2	1	0	0	0	Completed
Render menu cards from JSON	17/08/2026	5	0	1	2	2	0	Completed
Category grouping & responsive grid	19/08/2026	4	0	0	1	2	1	Completed

SPRINT BACKLOG

Backlog Item	Completion Date	Est. Hrs	D1	D2	D3	D4	D5	Status
SPRINT 3 – OPENING HOURS & LOCATION (20/08/2026 – 26/08/2026)								
Opening hours table design	21/08/2026	3	2	1	0	0	0	Completed
Embed Google Maps + address	24/08/2026	4	0	1	2	1	0	Completed
Contact & social links section	26/08/2026	2	0	0	0	1	1	Completed
SPRINT 4 – GALLERY & FOOTER (27/08/2026 – 02/09/2026)								
Photo gallery grid layout	28/08/2026	4	2	2	0	0	0	Completed
Lazy loading & hover effects	31/08/2026	3	0	1	2	0	0	Completed
Footer, quick links & back-to-top	02/09/2026	3	0	0	1	1	1	Completed

SPRINT BACKLOG

Backlog Item	Completion Date	Est. Hrs	D1	D2	D3	D4	D5	Status
SPRINT 5 – ADMIN PANEL (03/09/2026 – 09/09/2026)								
Password-protected admin login	04/09/2026	4	2	2	0	0	0	Completed
Add / Edit / Delete product form	07/09/2026	6	0	2	2	2	0	Completed
Save to LocalStorage + live preview	09/09/2026	4	0	0	1	2	1	Completed
SPRINT 6 – TESTING & DEPLOYMENT (10/09/2026 – 15/09/2026)								
Cross-browser & responsive testing	12/09/2026	4	2	2	0	0	0	Completed
Bug fixes & performance polish	14/09/2026	3	0	1	2	0	0	Completed
Final review & GitHub Pages deploy	15/09/2026	2	0	0	0	1	1	Completed

PRODUCT BACKLOG

ID	NAME	PRIORITY	HOURS	STATUS
1	Design hero banner layout	High	3	COMPLETED
2	Add café name, logo & tagline	High	2	COMPLETED
3	Implement CTA buttons & sticky nav	Medium	3	COMPLETED
4	Create menu JSON data structure	High	3	COMPLETED
5	Render menu cards dynamically	High	4	COMPLETED

PRODUCT BACKLOG

ID	NAME	PRIORITY	HOURS	STATUS
6	Category grouping & responsive grid	Medium	3	COMPLETED
7	Build opening hours table	Medium	2	COMPLETED
8	Embed Google Maps location	High	3	COMPLETED
9	Add contact & social links	Low	2	COMPLETED
10	Build photo gallery grid	Medium	3	COMPLETED

PRODUCT BACKLOG

ID	NAME	PRIORITY	HOURS	STATUS
11	Add lazy loading & hover effects	Low	3	COMPLETED
12	Design footer with quick links	Low	2	COMPLETED
13	Password-protected admin login	High	3	COMPLETED
14	Add / Edit / Delete product form	High	5	COMPLETED
15	Save & sync changes to LocalStorage	High	4	COMPLETED

USER STORIES

ID	As a type of User	I want to	So that I can
1	Visitor	view the hero section	get a quick first impression of the café
2	Visitor	browse the menu	see drinks, specials and prices before visiting
3	Visitor	check the opening hours	know when the café is open
4	Visitor	view the location map	find directions to the café easily
5	Visitor	view the photo gallery	get a feel for the café's atmosphere
6	Admin	log into the admin panel	securely manage the menu
7	Admin	add a new product	keep the menu up to date
8	Admin	edit a product's price or details	reflect current offerings accurately
9	Admin	delete or hide an item	remove discontinued products

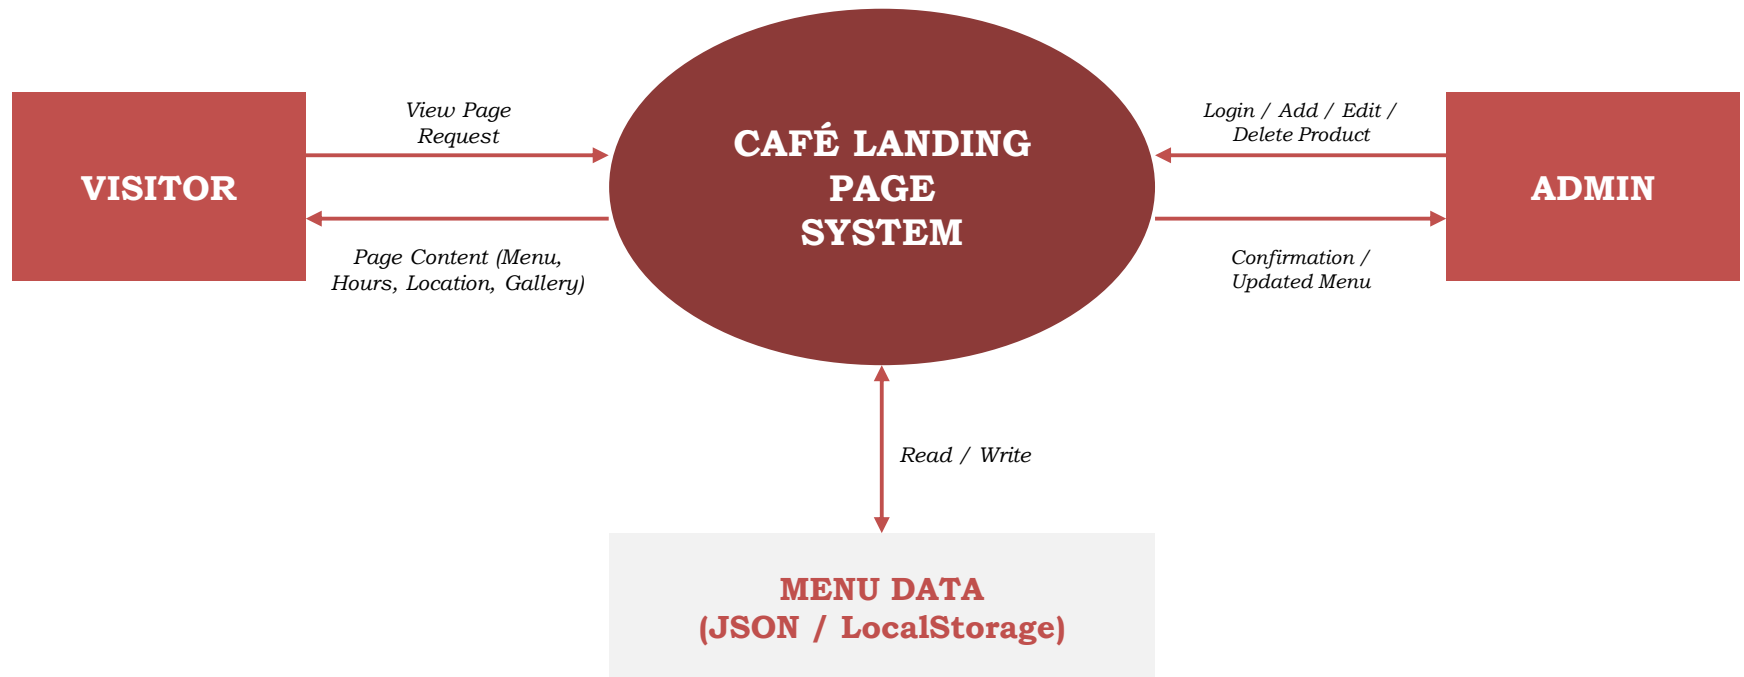

PROJECT PLAN

Sprint	Focus Area	Start Date	End Date	Days	Status
Sprint 1	Hero Section & Navigation	06/08/2026	12/08/2026	7	COMPLETED
Sprint 2	Menu / Specials Section	13/08/2026	19/08/2026	7	COMPLETED
Sprint 3	Opening Hours & Location	20/08/2026	26/08/2026	7	COMPLETED
Sprint 4	Gallery & Footer	27/08/2026	02/09/2026	7	COMPLETED
Sprint 5	Admin Panel	03/09/2026	09/09/2026	7	COMPLETED
Sprint 6	Testing & Deployment	10/09/2026	15/09/2026	6	COMPLETED
TOTAL PROJECT DURATION				41
